# REPLACING THE BACKREST COVER

To ensure that Human Touch® products are repaired in a manner that is fully consistent with the practices used during the manufacturing process, Human Touch requires that all product repairs are performed using only factory-new parts and in accordance with these product repair instructions.

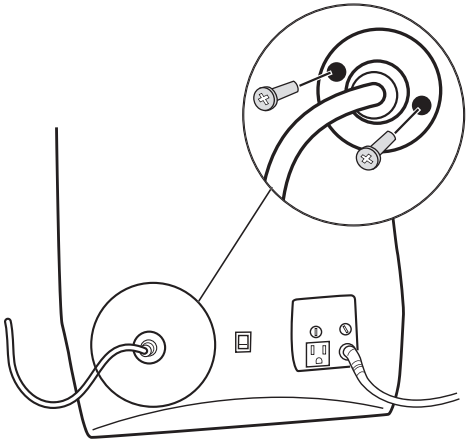
SERVICE LEVEL: 2

Tools Required: 5/32" (4mm) Allen key, Phillips-head screwdriver

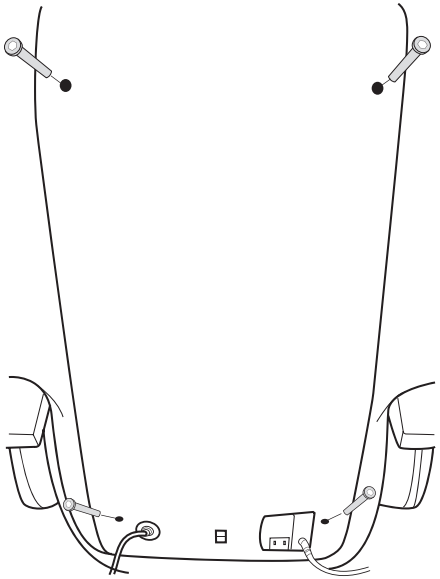
NOTE: SAVE ALL SCREWS FOR USE DURING REASSEMBLY.

## REMOVING THE BACKREST COVER

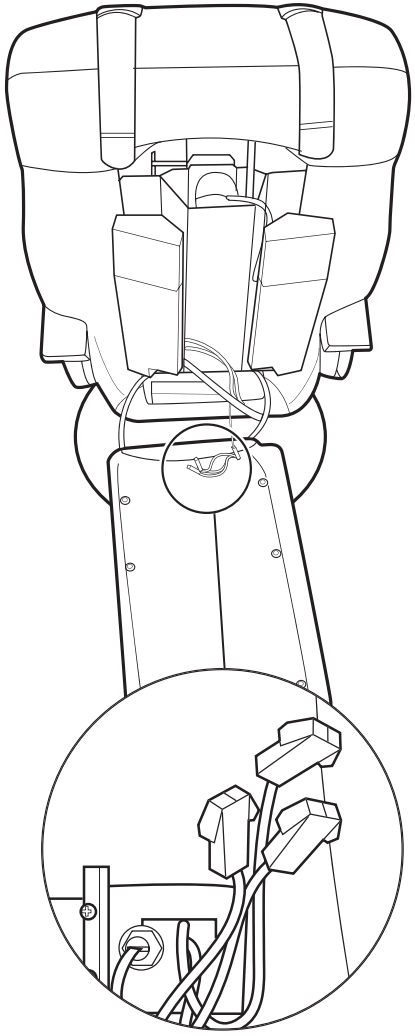
1. Use the remote control to raise the backrest to a fully upright position.
2. Power off the chair and unplug it.
3. Using a Phillips-head screwdriver, remove the two screws that secure the remote control bracket to the backrest cover (Fig.1).
4. Pull the remote control cables through the backrest cover, then disconnect the cables.
5. Using a 5/32" (4mm) Allen key, remove the four backrest cover screws. (Fig.2).
6. Tip the backrest cover backward then lay it carefully on the floor behind the chair.
7. Disconnect the three connectors (Fig.3).
8. Remove the backrest cover.



(Fig.1)



(Fig.2)



(Fig.3)

## INSTALLING THE NEW BACKREST COVER

1. Place the new backrest cover on the floor behind the chair, as shown (Fig.4).
2. Connect the three sets of connectors.
3. Thread the remote control cables from the backrest through the backrest cover, so that they are accessible after the backrest cover is installed.
4. Place the backrest cover into position, aligning the four screw holes.
5. Using the 5/32" (4mm) Allen key, replace the four backrest screws.

   NOTE: Be sure to use the two longer screws in the upper screw holes and the two shorter screws in the lower screw holes.
6. Reconnect the remote control cables, then push the cables into the backrest.
7. Using a Phillips-head screwdriver, replace the two remote control bracket screws.
